IMMUNOLOGY

CONTENTS

Vol. 51 No. 1 **January 1984**

I. WINQVIST, T. OLOFSSON & I. OLSSON: *Mechanisms for eosinophil degranulation; release of* the eosinophil cationic protein 1

P. ZANOVELLO, D. COLLAVO, F. RONCHESE, A. DE ROSSI, G. BIASI & L. CHIECO-BIANCHI: Virus-specific T cell response prevents lymphoma development in mice infected by *intrathymic inoculation of Moloney leukaemia virus (M-MuLV)* 9

J. L. GREENSTEIN, A. SOLOMON & G. N. ABRAHAM: Monoclonal antibodies reactive with *idiotypic and variable-region specific determinants on human immunoglobulins* 17

P. ÅMAN, J. GORDON & G. KLEIN: TPA (12-O-tetradecanoyl-phorbol-13-acetate) activation *and differentiation of human peripheral B lymphocytes* 27

S. A. LOBEL & K. L. KNIGHT: The role of rabbit Ia molecules in immune functions as *determined with the use of an anti-Ia monoclonal antibody* 35

S. DENHAM, J. SPENCER, R. BARFOOT & J. G. HALL: IgA antibodies in the bile of rats. IV. *Synthesis of secretory antibodies in irradiated rats reconstituted with spleen cells:* influence of microenvironment on the regulation of IgA production 45

P. Y. WONG, S. DEVI, I. F. C. MCKENZIE, K. L. YAP & T. PANG: Induction and Ly phenotype of suppressor T cells in mice during primary infection with dengue virus 51

B. T. ROUSE & H. WAGNER: Frequency of herpes simplex virus-specific cytotoxic T lymphocyte precursors in lymph node cells of infected mice 57

V. COLIZZI, J. FERLUGA, F. GARREAU, M. MALKOVSKY & G. L. ASHERSON: Suppressor cells induced by BCG release non-specific factors *in vitro* which inhibit DNA synthesis and interleukin-2 production 65

D. I. PRITCHARD, J. M. BEHNKE & D. J. L. WILLIAMS: Primary infection sera and IgG1 do not block host-protective immunity to *Nematospiroides dubius* 73

H. A. SCHENKEIN & B. RUTHERFORD: C3-mediated release of prostaglandin from human monocytes. Behaviour in short-term culture 83

R. BURGER, I. SCHER, S. O. SHARROW & E. M. SHEVACH: Non-activated guinea-pig T cells and thymocytes express Ia antigens: FACS analysis with alloantibodies and monoclonal antibodies 93

G. S. LE GROS, A. G. HERBERT & J. D. WATSON: *In vivo* modulation of thymus-derived lymphocytes with monoclonal antibodies in mice. II. Separation of natural killer cells and cytotoxic T cells 103

I. ORESKES & D. MANDEL: Reactivity of sized thermal aggregates of immunoglobulin G with IgM rheumatoid factor 115

M. KINGS, U. E. NYDEGGER & A. L. DE WECK: Control of immune complex and zymosan-mediated anaphylatoxin generation by proteins B and H of the alternative complement pathway 123

S. NITHIUTHAI & J. R. ALLEN: *Significant changes in epidermal Langerhans cells of guinea-pigs infested with ticks (Dermacentor andersoni)* 133

S. NITHIUTHAI & J. R. ALLEN: *Effects of ultraviolet irradiation on epidermal Langerhans cells in guinea-pigs* 143

S. NITHIUTHAI & J. R. ALLEN: *Effects of ultraviolet irradiation on the acquisition and expression of tick resistance in guinea-pigs* 153

M. HOSONO, Y. KATSURA & S. MURAMATSU: Ontogeny of antigen-presenting activity of haptenized cells in mice: early development of syngeneic T cell-stimulatory cells in thymus 161

A. O. HAMILTON, L. MORRISON, W. S. KILPATRICK, D. LAPPIN, J-C. BENSA, D. W. H. RICHES & K. WHALEY: role of C3 in the control of monocyte C2 production 169

G. BOLTZ-NITULESCU, B. ORTEL, M. RIEDL & O. FÖRSTER: Ganglioside receptor of rat macrophages. Modulation by enzyme treatment and evidence for its protein nature 177

R. C. MATHEW, J. CURTIS & J. L. TURK: T cell proliferation in *Mycobacterium lepraemurium* infection. I. Lack of correlation between antigen-specific proliferation of Lyt 1^+23^- cells and resistance in lethal infections 185

C. M. ROONEY & A. J. MUNRO: NK cells can recognize asialylated autologous and ABO-mismatched lymphocytes 193

Brief communication

L. A. SMITH & V. M. RUMJANEK: Transfer of protection against allergic encephalomyelitis from mother to offspring 201

BOOK REVIEWS 205

Vol. 51 No. 2 **Febuary 1984**

Review paper

T. G. EGWANG & A. D. BEFUS: The role of complement in the induction and regulation of immune responses 207

C. GENIN, F. COSIO & A. F. MICHAEL: Macromolecular charge and reticuloendothelial function: comparison between the kinetics of administered native and cationized ferritins and the corresponding immune complexes in the mouse 225

H. KITAMURA, H. NISHIMUKAI, Y. SANO & K. NAGAKI: Study on C3-like factor in the serum of a C3-deficient subject 239

M. PINDER, G. LIBEAU, W. HIRSCH, I. TAMBOURA, R. HAUCK-BAUER & G. E. ROELANTS: Anti-trypanosome specific immune responses in bovids of differing susceptibility to African trypanosomiasis 247

J. M. SHIELDS, W. HASTON & P. C. WILKINSON: Invasion of collagen by mouse lymphoid cells 259

D. D. VAKHARIA & N. A. MITCHISON: Helper T cell activity demonstrated by thymic nurse T cells (TNC-T) 269

Y. SHIMOKAWA, S. HARITA & H. HAYASHI: Lymphocyte chemotaxis in inflammation. VII. Isolation and purification of chemotactic factors for T lymphocytes from PPD-induced delayed hypersensitivity skin reaction site in the guinea-pig 275

Y. SHIMOKAWA, S. HARITA, Y. MIBU & H. HAYASHI: Lymphocyte chemotaxis in inflammation. VIII. Demonstration of lymphocyte chemotactic lymphokines in PPD-induced delayed hypersensitivity skin reaction site in the guinea-pig 287

S. HARITA, Y. SHIMOKAWA, Y. MIBU, M. ISHIDA & H. HAYASHI: Lymphocyte chemotaxis in inflammation. IX. Further characterization of lymphocyte chemotactic lymphokines produced by purified protein derivative-stimulation *in vitro* and *in vivo* 295

A. SALERNO, G. COLONNA ROMANO, F. DIELI & V. COLIZZI: Analysis of the T suppressor cell circuit which regulates contact sensitivity in mice infected with the virus of Newcastle disease 305

M. SIHVOLA & M. HURME: Defective repertoire of proliferative T cells during lymphatic regeneration 313

C. M. J. E. VANDENBROUCKE-GRAULS, R. M. W. M. THIJSSEN, J. H. MARCELIS, S. D. SHARMA & J. VERHOEF: Effects of lysosomotropic amines on human polymorphonuclear leucocyte function 319

C. M. HAWRYLOWICZ & G. G. B. KLAUS: Effects of tumour promoter phorbol myristate acetate on mouse lymphocytes: selective inhibition of B cell activation by mitogens and antigens 327

D. G. OSMOND & J. J. T. OWEN: Pre-B cells in bone marrow: size distribution profile, proliferative capacity and peanut agglutinin binding of cytoplasmic μ chain-bearing cell populations in normal and regenerating bone marrow 333

C. P. SULLIVAN & H. WALDMANN: T cell help mechanisms in the *in vitro* antibody response: the role of linked and non-linked recognition interactions 343

C. P. SULLIVAN, G. KENNY & H. WALDMANN: The role of the major histocompatibility complex in *in vitro* antibody responses: MHC restriction in responses involving linked recognition of antigenic determinants is not solely consequent to T cell–accessory cell restrictions 351

A. N. AKBAR & D. B. JONES: Suppression of the mixed lymphocyte reaction by alloantigen-primed and -stimulated human spleen lymphocytes 361

B. PARHAMI-SEREN, Z. ESHHAR & E. MOZES: Serological analysis of idiotypic determinants on monoclonal antibodies specific to poly(Tyr,Glu)-poly(DLAla)--poly(Lys) and its ordered analogue (Tyr-Tyr-Glu-Glu)-poly(DLAla)--poly(Lys) 367

A. G. HERBERT, G. S. LE GROS, S. BIDAWID & J. D. WATSON: *In vivo* modulation of thymus-derived lymphocytes with monoclonal antibodies in mice. III. Spontaneous and natural cytotoxic effector cells 377

R. P. PHIPPS, T. E. MANDEL, C. T. SCHNIZLEIN & J. G. TEW: Anamnestic responses induced by antigen persisting on follicular dendritic cells from cyclophosphamide-treated mice 387

R. J. CROSS, W. R. MARKESBERY, W. H. BROOKS & T. L. ROSZMAN: Hypothalamic-immune interactions: neuromodulation of natural killer activity by lesioning of the anterior hypothalamus 399

N. K. MAK, C. SWEET, G. L. ADA & G. A. TANNOCK: The sensitization of mice with a wild-type and cold-adapted variant of influenza A virus 407

Vol. 51 No. 3 **March 1984**

N. VAN ROOIJEN, N. KORS, D. M. BOORSMA, P. DE HAAN & R. VAN NIEUWMEGEN: Double immunocytochemical staining in the study of antibody-producing cells *in vivo*. Simultaneous detection of anti-hapten and anti-carrier antibody-producing cells in lymphoid tissue 417

C. JACOBSEN & J. STENSGAARD: Binding properties of monoclonal anti-IgG antibodies: analysis of binding curves in monoclonal antibody systems 423

M. BERGER & A. S. CROSS: Lymphoblastoid cell supernatants increase expression of C3b receptors on human polymorphonuclear leucocytes: direct binding studies with ^{125}I-C3b 431

M. HIRASHIMA, K. TASHIRO & H. HAYASHI: the regulation of tissue eosinophilia. I. Coexistence of eosinophil chemotactic factor and inhibitor in allergic skin lesions of Freund's complete adjuvant-treated guinea-pigs 441

R. A. ADAMS, L. SMITH & P. E. C. PICKERING: The incidence of monoclonal proteins during 7 years of screening in a District General Hospital 451

T. C. MOORE: The modulation by prostaglandins of increases in lymphocyte traffic induced by bradykinin 455

A. FERRANTE & C. SMYTH: Mitogenicity of *Naegleria fowleri* extract for murine T lymphocytes 461

V. HOLÁŇ & N. A. MITCHISON: Allospecific suppression without requirement for participation of Ly 2^+ cells 469

Y. ISHII, A. MATSUURA, H. IWAKI, T. TAKAMI & K. KIKUCHI: Two closely related antigens expressed on granulocytes, macrophages and some reticular elements in rate lymphoid tissues: characterization by monoclonal antibodies 477

A. COOKE & P. HUTCHINGS: Defective regulation of erythrocyte autoantibodies in SJL mice 489

Y. FUKUOKA, J. SEINO, T. OKUDA & T. TACHIBANA: Purification of the fourth, second and fifth components of mouse complement 493

H. P. GODFREY, A. ATLAS, B. RANDAZZO & C. V. ANGADI: Regulation of macrophage agglutination factor production by α_2-macroglobulin 503

E. M. A. CURLING & D. W. DRESSER: Allotype suppression in an adoptive transfer system in adult mice: the specificity and feed back effects of a monoclonal IgG3 anti-(Igh-1^b) allotype antibody 511

K. MEHTA, R. L. JULAINO & G. LOPEZ-BERESTEIN: Stimulation of macrophage protease secretion via liposomal delivery of muramyl dipeptide derivatives to intracellular sites 517

N. M. MACKENZIE & K. D. KEELER: A flow microfluorimetric analysis of the binding of immunoglobulins to Fcγ receptors on brush borders of the neonatal mouse jejunal epithelium 529

R. H. J. BEELEN & W. S. WALKER: Exocytosis and macrophage-mediated antibody-dependent cellular cytotoxicity: a cautionary note 535

D. A. CHERESH, D. H. HAYNES & J. A. DISTASIO: Interaction of an acute phase reactant, α_1-acid glycoprotein (orosomucoid), with the lymphoid cell surface: a model for non-specific immune suppression 541

B. M. CZARNETZKI, C. G. FIGDOR, G. KOLDE, T. VROOM, R. AALBERSE & J. E. DE VRIES: Development of human connective tissue mast cells from purified blood monocytes 549

W. A. FLEMING (the late), D. E. S. STEWART-TULL, S. MCCLURE & A. M. MCKEE: Cellular responsiveness *in vitro*: the effect of mycobacterial glycopeptides, glycolipids and peptidoglycolipids on the *in vitro* growth of haemopoietic colony-forming cells 555

D. B. THOMAS & K. D. KEELER: Flip-flop in the Lyt 2 Phenotype of T cells from radiation chimaeras between Thy 1 congenic donor and recipient mice 563

J. BROM, M. RAULF, M. STUNING, B. SPUR, A. CREA, K. D. BREMM & W. KONIG: Subcellular localization of enzymes involved in leukotriene formation within human polymorphonuclear granulocytes 571

N. AIME, A. HAQUE, B. BONNEL, G. TORPIER & A. CAPRON: Neutrophil-mediated killing of *Dipetalonema viteae* microfilariae: simultaneous presence of IgE, IgG antibodies and complement is required 585
M. ZOUALI, R. JEFFERIS & A. EYQUEM: IgG subclass distribution of autoantibodies to DNA and to nuclear ribonucleoproteins in autoimmune diseases 595
J. BUYS, R. WEVER & E. J. RUITENBERG: Myeloperoxidase is more efficient than eosinophil peroxidase in the *in vitro* killing of newborn larvae of *Trichinella spiralis* 601
K. MATSUMURA, Y. KAZUTA, R. ENDO & K. TANAKA: Detection of circulating toxocaral antigens in dogs by sandwich enzyme-immunoassay 609
S. G. HADFIELD & A. A. GLYNN: Application of immuno-blotting to the differentiation of specific antibodies in gonorrhoea 615
Announcement 623

Vol. 51 No. 4 **April 1984**

D. L. WASSOM, D. WAKELIN, B. O. BROOKS, C. J. KRCO & C. S. DAVID: Genetic control of immunity to *Trichinella spiralis* infections of mice. Hypothesis to explain the role of H-2 genes in primary and challenge infections 625
D. I. PRITCHARD, N. M. H. ALI & J. M. BEHNKE: Analysis of the mechanism of immunodepression following heterologous antigenic stimulation during concurrent infection with *Nematospiroides dubius* 633
D. M. HAIG, E. E. E. JARRETT & J. TAS: *In vitro* studies on mast cell proliferation in *N. brasiliensis* infection 643
S. J. KING & H. R. P. MILLER: Anaphylactic release of mucosal mast cell protease and its relationship to gut permeability in *Nippostrongylus*-primed rats 653
I. ENANDER, S. AHLSTEDT & H. NYGREN: Mononuclear cells, mast cells and mucous cells as part of the delayed hypersensitivity response to aerosolized antigen in mice 661
A. C. MCCASKILL, C. S. HOSKING & D. J. HILL: Anaphylaxis following intranasal challenge of mice sensitized with ovalbumin 669
W. R. HENDERSON, J. B. HARLEY & A. S. FAUCI: Arachidonic acid metabolism in normal and hypereosinophilic syndrome human eosinophils: generation of leukotrienes B_4, C_4, D_4 and 15-lipoxygenase products 679
B.-Y. WEI, V. HOLFORD-STREVENS, B. G. CARTER & A. H. SEHON: Suppression of the anti-trimellityl (TM) IgE response in mice by conjugates of TM with polyvinyl alcohol 687
M. TAKAHASHI, T. USHIJIMA & Y. OZAKI: Biological activity of *Pityrosporum*. I. Enhancement of resistance in mice stimulated by *Pityrosporum* against *Salmonella typhimurium* 697
R. C. MATHEW, J. CURTIS & J. L. TURK: T cell proliferation in *Mycobacterium lepraemurium*. II. Characterization of cells that transfer resistance in subcutaneously infected mice 703
C. CHEERS & P. WOOD: Listeriosis in beige mice and their heterozygous littermates 711
R. K. SAXENA, Q. B. SAXENA & W. H. ADLER: Interleukin-2-induced activation of natural killer activity in spleen cells from old and young mice 719
Q. B. SAXENA, R. K. SAXENA & W. H. ADLER: Effect of protein calorie malnutrition on the levels of natural and inducible cytotoxic activities in mouse spleen cells 727
A. VAN OUDENAREN, J. J. HAAIJMAN & R. BENNER: Frequencies of background cytoplasmic Ig-containing cells in various lymphoid organs of athymic and euthymic mice as a function of age and immune status 735

R. SINGHAI, M. WEAVER, L. SIKORA & J. G. LEVY: Evidence for the presence of idiotype-bearing regulatory T cells in which idiotype expression does not show linkage to either Igh alleles or the MHC 743

D. Y. SIA, P. J. LACHMANN & K. N. LEUNG: Studies in the enhancement of tumour immunity by coupling strong antigens to tumour cells ('heterogenization of tumours'). Helper T cell clones against PPD help other T cells mount anti-tumour responses to PPD-coupled tumour cells 755

A. MALLEY, L. BRADLEY & S. SHIIGI: Preparation and characterization of a monoclonal anti-T helper factor antibody 765

I. S. DUNN, D. J. LIBERATO, N. CASTAGNOLI & V. S. BYERS: Induction of suppressor T cells for lymph node cell proliferation after contact sensitization of mice with a poison oak urushiol component 773

M. K. BRENNER, M. E. NORTH, H. R. CHADDA & J. FARRANT: Non-specific factor enhancement of human *in vitro* antigen-dependent antibody synthesis: role of B cell activation and T cell help 783

A. H. MERRY, E. E. THOMSON, D. J. ANSTEE & F. STRATTON: The quantification of erythrocyte antigen sites with monoclonal antibodies

M. FUJIWARA & A. KARIYONE: Induction of immunoglobulin-secreting cells by 2-mercaptoethanol in *in vitro* culture of B cells from autoimmune mice 801

U. HOLMSKOV-NIELSEN, J. C. JENSENIUS, K. ERB & S. HUSBY: Immune complex formation analysed by high-performance size exclusion chromatography (HPLC-SEC) using either ^{125}I-labelled antigen or enzyme-linked immunosorbent assay (ELISA) for detection 809
